Summer charter rate: from EUR 65 000 per week Winter charter rate: from US$ 98 000 per week

Destinations: Europe, The Caribbean & South America, Western.

Launched in 2009 this 37 meter (121’ 4") luxury sloop was designed by Dubois Naval Architects and constructed by Yachting Developments NZ. She is considered to be one of the finest vessels built in her category in recent times.

With her clean lines and contemporary design, BLISS is a harmonious blend of comfort, style and speed, ideal for both racing and luxury cruising. Her composite hull and performance rig enable her to sail efficiently in most wind conditions, offering comfortable cruising at all times, plus more exhilarating performance when desired.

Her contemporary and striking interior décor features specialist paint finishes with textured leather and shagreen-wrapped panels. Outdoor areas offer sunbathing, shaded cockpit dining and a practical swimming platform. There is a wide range of water sports equipment and -unusually for a sailing yacht - a Jacuzzi tub on the foredeck.

BLISS offers flexible and luxurious accommodation in three en suite cabins, two of which can be configured as doubles or twins. Four additional Pullman berths allow her to accommodate up to 10 guests in total, making her perfect for families or groups of friends. She is run by an experienced, efficient crew of four offering the highest levels of service and cuisine.
